### TAKEOFF AGAIN BLOCKS OCEAN FLIGHT PLANS

By J. T. MEANEY  
United Press Staff Correspondent.

St. John's, N. F., June 13.—(U.P.)—The prospective race over the Atlantic between Miss Amelia Earhart with her monoplane Friendship and Miss Mabel Boll in the Columbia was postponed for at least another day when the Friendship failed to take the air after three attempts on Trepassey bay and the Boll announced she preferred to rest until Thursday.

Wilmer Stultz, Miss Earhart's pilot, announced he would try again Thursday to get the Friendship off the water into the air by reducing her heavy load of gasoline.

Experts believe the Friendship's gasoline supply must be materially reduced before the giant ship can take off. They believe also that the heavy plane will not rise with sufficient fuel for the Atlantic flight. Trepassey is said to be unsuitable for a seaplane takeoff for it is swept constantly by swift westerly winds.

It is predicted the Friendship will have to be taken to Conception bay nearby and start with a lighter load.

### Widow Will Receive Estate of \$10,000

The directors also accepted an invitation to attend a public reception and home coming celebration in Sacramento Saturday night, honoring the Hon. Charles P. Curry on his return from Washington. Congressman Curry is chairman of the important rivers and harbors committee and is California's veteran legislator in the national congressional halls. He is a noted friend of Richmond and has been chiefly responsible for securing government aid for Richmond's harbor projects.

The directors are also taking an active interest in the plans for the ground-breaking ceremonies for Richmond's new inner harbor wharf and cargo building on Friday, June 22. This general committee is headed by E. B. Bull, named by Mayor Matie E. Chandler.

According to advice from Sacramento, Miss Fulton and Nemeth were swimming near shore when Nemeth was caught in a whirlpool. Despite Miss Fulton's frantic attempts to save him, Nemeth was carried beyond his depth. Later she sighted his body and brought it ashore when attempts to resuscitate Nemeth were unsuccessful.

The remains arrived at the chapel of Wilson and Kratzer here last night. Funeral services will be held Saturday afternoon at 3 o'clock from the chapel with cremation in the Berkeley crematory. Rev. Antone Sabo of Oakland will officiate.

Having disposed of the controversy over the farm plank, the full committee made ready work of passing the prohibition plank and the campaign expenditures plank.

Having cleared these controversial matters the full committee approved the sub-committee's draft and the platform will go tomorrow before the full convention. There a row over the farm relief plank is scheduled. It may become extremely bitter as the farm bloc has promised to offer a plank favoring the McNary-Haugen bill.

Only five votes were cast opposing the prohibition plank, calling for strict enforcement under the 18th amendment. This plank is more far reaching than the party had hitherto endorsed. An anticipated fight against this plank failed to materialize.

### SHIP RADIO QUIETED AS HEAVY GALE WHIPS SEAS

KINGS BAY, Spitsbergen, June 13.—(U.P.)—A disturbing silence and the menace of wild Arctic storms and heavy seas enveloped General Umberto Nobile and other members of the crew of the wrecked dirigible Italia as they drifted slowly on an ice floe toward Nordostland.

Strong north winds were blowing. The ice on the southern edge of the ice pack was breaking under thunderous seas and a heavy fall of snow. Fears were felt for the safety of the three men who left Nobile in a desperate attempt to walk to the mainland.

The rescue ships Hobby and Bracaganza were confronted by danger of being crushed by ice, but the Bracaganza was loading supplies hurriedly in preparation for dash back into the threatening storm in search of the sea-lions. The voyage would be perilous, it was admitted here tonight.

Hopen Island, southwest of Nordostland and 450 kilometers removed from Nobile, a three hour flight, was designated as the base for the Russians and Swedish relief planes.

One Russian plane is aboard the Russian ice-breaker Daigin, pushing toward Nobile through the laden seas.

Captain Risler-Larsen, head of the relief work, returned to the Hobby from a reconnoitering trip today. It was not known whether he had seen any trace of the explorer.

ROME, June 13.—(U.P.)—General Umberto Nobile of the Arctic dirigible Italia was injured in the right arm and leg and Chief Engineer Ceccioni suffered a broken right leg when the dirigible crashed on the ice off Norway May 25, an official announcement tonight said.

The Swedish physician Malmgren suffered severe contusions of the arm in the wreck according to the report, which was the first intimation that Nobile had been injured.

Hitherto Nobile's reports had said two men were injured, but had not mentioned that he was one of them.

After she was installed yesterday in the president's private car, it was switched to the ordinary track yards to be coupled to the eight car special train later.

A small crowd was at the station to give farewells to the party of more than 70 persons—the largest to go to a summer White House.

By leaving tonight, President and Mrs. Coolidge will be established at Cedar Island by Friday.

Mrs. Smalley asks to be awarded alimony of \$75 monthly.

## ON PATERNALISM

We hear a great deal nowadays about this or that plan as a paternalistic scheme of government. This naturally leads to the inquiry as to whether most of us realize exactly what paternalism in government means. The word "paternal," of course, comes from the Latin. With the Romans "pater" meant father. Paternalistic government is therefore a fatherly one. But the trouble with paternalism in government is that it is apt to carry the fatherly spirit entirely to far. All of us know of cases where the future of a child has been ruined because his parents have taken too good care of him. They have absorbed all the rude shocks for him and given him such complete service that when he arrives at the age of manhood he is unable to look out for himself.

Paternalistic or "fatherly" government is apt to do the same thing for the citizenry in general. It seeks to do, through the medium of the federal household the things which the citizen should look after himself which he should accomplish as an individual or should control through his local and state government. Now if paternalism in government is kept up long enough it will do for the citizenry exactly what too much paternalism will do for the child in private life—render it totally unfit to look out for itself. Then follows the logical result which may be a one-man autocracy or the autocracy of the socialized state, which is just as bad and often infinitely worse because it is less efficient.

Of course there are a lot of good people who advocate bureaus at Washington for performing duties that the people should look after for themselves. And there are others who advocate public ownership. Here are two of the first steps toward paternalism in government. The best way to avoid the evil is not to take the first step.

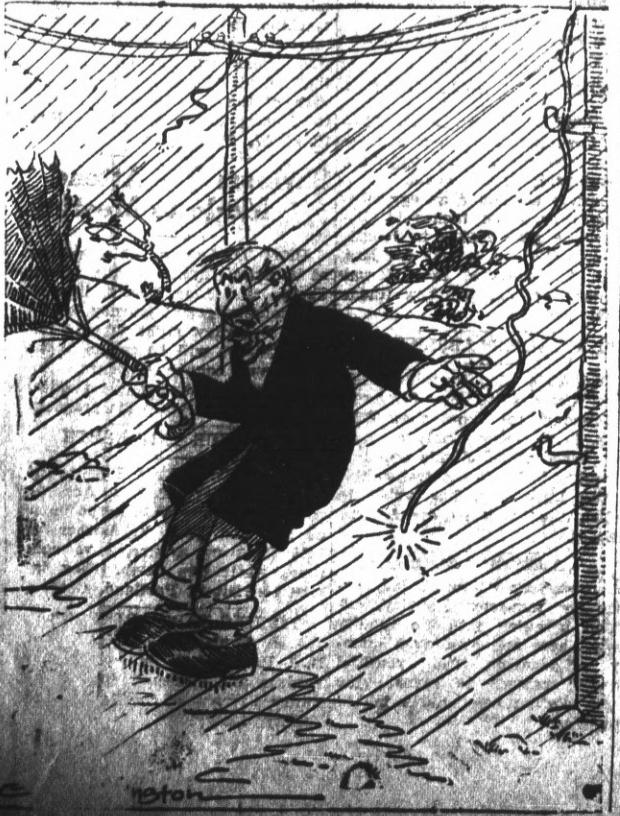

Citizens of New Jersey threw eggs at a street speaker who attempted to criticize the city tax rates. Who was it said that there was never anything new under the sun?

If the nail becomes bent in the middle you had best leave it alone.

It has got so they serve almost everything from a leaf of lettuce but a subpoena.—Detroit News.

PICTORIAL REVIEW

## THE STRAIGHT-LINE

The straight-line frock at its best is featured here, being developed in pongee silk. The fronts of the blouse are crossed in surplice style, giving an excellent fit to the model. Plaid is used for collar and draped girdle. Flat crepe or linen should be used for this dress, which requires, for medium size, 3 1/4 yards 36-inch plain and 1/4 yard plaid material.

Pictorial Review Printed Pattern No. 3780. Sizes, 34 to 44 bust, 50 cents. Embroidery 13117, 10¢ or yellow transfer, 40 cents.

## MARY ANN GAY

## BEAUTY

BY LAURA LANE

Frequently a letter comes to my desk from someone who writes vaguely that she has a "lump" on her scalp and body and "what should I do about it?"

Invariably I tell the correspondent to consult a physician.

A "lump" may be one of many things, a wen on the scalp, a mass which can be felt in the breast or abdomen, a ganglion of some kind near a joint, an enlarged lymph gland, an overactive thyroid, or many other things.

Whatever it is no one knows or desires it. And it should be gotten rid of not only for cosmetic purposes but because it is all too likely to develop into something else.

Whenever you have a "lump" you may be sure it will do one of three things—go away, get bigger or remain the same. It usually goes away. And if it continues to grow it often turns to cancer. Lumps in the breast I am told on good medical authority, are particularly frightening. The statistics are: Eighty per cent of breast lumps are cancer and 80 per cent of the remaining 20 per cent become cancer.

Of course you can leave a lump go but if so it would be best to carry large insurance. A neat little scar from a surgeon's skillful knife is much preferable to a painful and possibly fatal illness.

If you find a "lump" on your person don't just worry about it. See a man of science—and do so quickly.

Some Children of Mexico

A STORY BOOK TOUR

The Mexican father did not work hard. The Mexican mother did not work hard.

They liked best of all to go to town and sit and talk.

Angela liked to go to town. She liked to hear the music and see the dance. She liked to dance to the music. She liked to sing.

Juanito liked to go to town. He liked best of all to see a cock fight. It was fun, fun, to see the roosters fighting, Juanito thought.

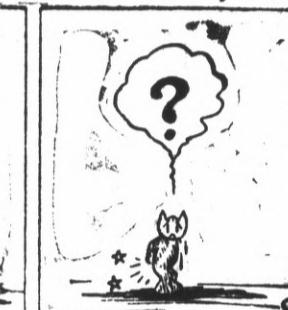

If there were some work to do in the small garden, father would look at the garden. He would smile, and his white teeth would flash. "Manana," he would say, "Manana." And that word means "tomorrow." That meant that father would do the work tomorrow—maybe!

So when Juanito saw some work to do he would flash his teeth and smile. He would say, "Manana," too.

And, unless there were no tortillas to eat at all, mother, too, would say "Manana." She would grind more corn tomorrow—if she had to!

## FIGHT LOOMS AT CONCLAVE OVER PLANK

(Continued from Page 1)  
to count twenty-two Hoover delegates from Texas by rejecting the contest brought by anti-Hoover delegates.

Second—the policies of President Coolidge was endorsed in a platform plank adopted by the Platform Drafting sub-committee without a roll call. A proposed plank to support the principles of the McNary-Haugen bill favored by Lowden and opposed by Hoover and the President was defeated 13 to 3.

A third development of equal importance, although not involving the candidates, was the tentative adoption by the platform committee of a bone dry prohibition plank mentioning the eighteenth amendment by name. If the convention sustains this action, the platform will inevitably compel the Republican party to take the dry side of any liquor issue that may develop should Governor Smith be nominated by the democrats.

The prohibition plank avoids entirely the question of modification, but pledges the party to sincere enforcement.

The one spark of fire was struck during the fight over the seating of the Hoover-Texas delegates. Here, everyone realized was something of a test of strength between Hoover and his opposition. The preliminary debate was followed closely with signs of genuine interest. Hundreds kept tallies of the roll call. There were frequent bursts of applause when important states voted on one side or the other—as for instance when Secretary Mellon rose and announced Pennsylvania's 79 votes were cast on the side of Hoover.

Gallery sets have never been fully occupied during the convention sessions—not even at the opening hour.

But when the gong rings for the farm relief fight, there may be something doing.

Some 340 of them, headed by a Kansas City band in overalls and hayseed hats, marched to the doors. Policemen stopped them. A spokesman went inside to obtain permission to take his marchers in, but "Sergeant-at-arms" Nixon refused to admit them. "They can't get in here without

STIRRING CONVENTION BATTLE IS UNDER WAY! The Republican delegates are now gathered in the huge hall in Kansas City. The convention scene of 1924 (above) will be re-enacted. Herbert Hoover is shown in upper left inset; Frank O. Lowden, upper right; Charles G. Dawes, lower left; Andrew W. Mellon, lower right; President Coolidge, upper center, and William M. Butler, chairman of the Republican National Committee, bottom center.

tickets," he told Edgar D. Bush, former Lieutenant governor of Indiana and a candidate for the same office.

"We are Americans and Republicans," Bush said. "We promise to be peaceful."

"Sorry, Ed," replied Nixon, "but if we let them in, it would demoralize the proceedings."

"Our farmers will resent this," Bush told Nixon as he left with his group.

Party leaders were conferring, chiefly in haphazard fashion throughout the day and night over the vice-presidential nomination. Nothing crystallized, but a strong trend against renominating Vice-President Dawes developed among some of Hoover friends.

Although temperance bars were steadily rising outside of the convention, the formal processions inside of the hall have been calm.

Andrew W. Mellon is nearly the only person around the convention who has drawn a curtain upon himself upon entering the hall.

Senator George Moses, when he took the gavel as permanent chairman today, sought to stir the convention to some demonstration of enthusiasm by directing a strong attack at the democrats, referring to their last convention as "Madison Bear Garden" and defying them "to bring on their strongest candidate, be his name Robinson, Jones or Smith."

But after giving him a hand for his efforts the delegates lapsed back into reverie or whatever it is that they are suffering from.

However, the delegates and the spectators are not necessarily to be blamed for this lack.

### Inch In Its Time Plays Many Parts

CHICAGO, June 13. (UPI)—The Einstein theory of relativity is correct, according to Charles E. St. John of the Mount Wilson Observatory who says he has proved it. But St. John adds, the measurements made in support of the theory are so small that ordinary human beings cannot conceive of them.

St. John, in confirming for himself the theory of relativity, made a measurement of one one-hundredth of a ten-millionth of a millimeter. An inch, if divided into strips equal to this measurement, would supply 25,000,000,000 of them.

St. John's final and complete presentation of researches extending over six years, is published in the May Astrophysical Journal edited by Professor Edwin B.

### Resignation Of Haney Accepted

With expressions of regret, the presbytery in San Francisco took formal action to dissolve the pastoral relation of Rev. Earl W. Haney with the First Christian church of this city. Rev. Haney, accompanied by Mrs. Haney will leave here after June 22, when the pastor will take up duties in a higher post in Los Angeles.

Haney's activities in the development of the local church were highly lauded at the meeting.

Presenting Richmond at the San Francisco session of the presbytery were Dr. W. W. Gibson, J. H. Plate and F. S. Newsom.

Folders boosting Los Angeles as the 1930 convention city have been received and comrades are urged to mail them to their friends in the east.

Comrade Narbett has called a meeting of the Community Betterment committee for this evening at 7:30, before the regular session of the post.

Tonight a color bearer and a delegate to the County Council will be elected to till a vacancy caused by the departure of Comrade McMurtie for Wyoming.

It was announced that applications for adjusted compensation may be filed at this time. The final date for filing is July 2, 1930.

## OAKLAND FIRM PURCHASES BIG TRACT OF LAND

MARTINEZ, June 13.—A veil of secrecy continues to shroud the purchase of 622 acres of the St. Ignatius College property in the Pinole valley although rumor persists that the purchasers of the property plan for the establishment of a new country club subdivision in the near future.

Alexander Andrew, director of the Central National Bank of Oakland, appears as the purchaser of the property although J. H. L'Hommedieu, east bay operator, is associated with him in the venture. Andrew, a Piedmont millionaire, is now in Alaska on a vacation trip and pending his return L'Hommedieu today declined to disclose the ultimate disposition of the property or the plans of the new owners for its development.

The location of the property, proximity to the highway and nearness to the east bay cities, coupled with the character and contour of the land, leads to the belief that a country club project is being seriously considered with building lots, possibly future home sites for members, being sold with memberships.

## BUCKY BLAMED FOR SHOWING OF SENATORS

The question has been raised as to whether the poor showing of the Washington Senators this year may not have been due to the fact that their manager, Bucky Harris, has other things on his mind than baseball as a result of his marriage into Washington society and his elevation to the pages of the social register.

Knowing Bucky, it is difficult to believe that he hasn't heart in his work, for if ever there was a born ball player, it is the young man from the mites.

It is a fact, however, that since Harris rose socially the Senators have sunk in the American League standings. Some of the Washington fans, usually a loyal lot, especially since the club won two championships, are beginning to chide Bucky about his social connections. It happens so strike out, which is seldom goodness knows, the war cry of the wild raspberry is heard through Griffith Stadium. If a grounder bounces from his shins, an investigating committee which has nothing to do with oil leases demands to know why he doesn't take off his spats.

The Senators have been hampered by series of injuries and illness this spring, which accounts in a great measure for the club's failure. Harris himself was out with an injury to his foot and a fractured finger.

"Mike Martin, our trainer, who has been with Griff for 20 years, said he never saw a club as we have had during the past two seasons," Bucky said when in New York recently.

The man we missed most was Goslin. He drives in over 100 runs a year and provides the big punch

## HERE'S ONE NOT OVER-TEXED—

## Yanks Retain Big Lead By Beating Sox

BY UNITED PRESS

The New York Yankees maintained their nine and a half game lead over the second place Philadelphia Athletics by defeating the White Sox, 8 to 6, to gain an even break in the 4-game series.

The Yankees made 15 hits off Ted Lyons, but there was not a home run among them. Babe Ruth hit two singles, his first one in the third inning, being his first single on the western trip. George Durst and Lazzeri led the Yank's attack with three hits each.

Pounding three Detroit pitchers for fourteen hits, the Philadelphia Athletics beat the Tigers, 12 to 5, making it three out of four.

Jackie May, who shut out the Giants in the opening game of the series, weakened in the eighth inning and O'Farrell's single tied the count 3-3. The Reds won out in the tenth when Zitzmann beat out a hit, stole second and scored on Dressen's double. Dressen counted on Ford's single.

The St. Louis Cardinals kept pace with the Reds by hitting five home runs and beating the Boston Braves, 11 to 8.

Dazzy Vance dazzled the Chicago Cubs and the Brooklyn Robins trounced the McCarthymen 7 to 2.

Art John's double in the ninth drove Home Tompson and Leach and enabled the Philadelphia Phillies to trim the Pittsburgh Pirates 4 to 3.

NEW RATES MAKE ELECTRIC COOKING VERY ECONOMICAL

**And then let the electric range do all the cooking**

Every woman loves to cook—when the monotony of cooking is gone.

That is what the electric range does. It eliminates cooking monotony. Its harmonious white porcelain enamel makes kitchens attractive. Its perfect baking wins appetites. And its automatic time and temperature controls do the cooking while you're shopping or at the movies.

The oven of the new electric range heats up to 400 degrees in 9 to 11 minutes—as fast as one can mix biscuits. The open coil cooking elements are now made smaller to fit your pans. Heat that was formerly wasted goes to work. The result is, food cooks faster—less electricity is used.

See the new electric ranges today. Ask about our special low terms.

## LATZO WINNER ON FOUL FROM ABERDEEN PUG

BY GEORGE KIRKSEY  
EBBETS FIELD, Brooklyn, June 13.—(UPI)—Pete Latzo of New Jersey, former welterweight champion, won on a foul after one minute and 22 seconds of fighting in the sixth round of a scheduled ten round bout with Leo Lomski, Aberdeen assassin, here tonight.

The sudden ending left 15,000 spectators gasping after witnessing five rounds of some of the most sensational fighting seen in Brooklyn for months.

Latzo, who 18 days ago gave the light heavyweight champ, Tommy Loughran, an unexpected scare in a fight, came back into the same ring tonight doped to lose, only to outfight Lomski in five rounds of hammer and tong battling.

A low right brought up from the floor sent Latzo writhing to the canvas and the referee waved Lomski to his corner awarding the match to Latzo.

Lomski, swinging wildly all evening had been repeatedly warned by the referee for his low punch but could not seem to bring it up.

Jimmy Johnston, Latzo's manager, protested frantically about the low rights during the rest periods between the fifth and sixth rounds and the referee had to order him out of the ring.

Latzo will set a new mark for the 480 miles.

## Paleface Is Entered In Indian Race

SAN FRANCISCO, June 13.—A white runner, reported to be a well known amateur athlete, was entered unofficially in the Redwood Empire marathon at the last night. His entrance into the contest gives a new angle to the big sporting event—Paleface against Indian. As a result, public attention is focused on the race more intently than ever before.

Paleface Yellowbird—that is the only name by which the white runner is known. That he is an amateur is made certain by the announcement that he is not competing for the prize money but is running for sportsmanship. C. Hunter, track coach of the Olympic club and member of the 1924 Olympic team, is the official observer for the white athlete. Hans Ober, retired national and world champion in bicycle sprint races, now a business man here and a member of the Olympic club, is his manager.

Ober is authority for the statement that the runner is a former aviator, well known in several other sports than racing. He is going to set a hard pace for the Indians, as he is accompanied by a truck equipped with shower bath, ice chest, beds and lockers, and will be able to arrange rest and eating periods with the least loss of time. It is hoped Paleface Yellowbird will set a new mark for the 480 miles.

## SCRUB TEAM VICTOR OVER BEN MALIKS

The Dougalls failed to show up for their game with the Maliks last night at First Street park and consequently forfeited the game and their one game lead on first place in the league.

Reinforcements were picked up for the depleted Dougalls and a scrub game was played with the Dougalls Scrubs winning from the Maliks by a score of 6 to 5. Five innings were played for the love of the game and a little practice with the Maliks quitting without taking their turn at bat in the fifth.

## SCREEN STAR RESTURES BABE TO ITS MOTHER

HOLLYWOOD, June 13.—(U.P.)—The operatic quality story—villain on the screen and gentle husband and father in the home—has worked fairly hard in Hollywood.

The case of Rosa Rudami, murderer of no less than six in her vainglorious screen career, holds water and has побег—back it.

Dorothy Nolan, a bewildered telephone operator, left the country hospital last month with her newborn and fatherless baby. A few hours later the child was found in the rear seat of an expensive automobile.

The baby was returned to the hospital and identified by its clothing. Miss Nolan was arrested on a charge of desertion. The police record shows she had 22 cents when she was taken into custody.

Miss Rudami, one of the few Italian actresses of note in the colony, obtained a lawyer for Miss Nolan. The lawyer obtained the girl's freedom for her and Miss Rudami found her a position, gave her a wardrobe and succeeded in having the child returned to her.

The Italian actress' part in the Nolan case was known until a police sergeant talked for the benefit of newspapermen. Then it was learned that Miss Rudami also was responsible for the release from the Auburn, N. Y., prison of Angelina Tagliani, who had disguised herself as a child so she had become attached to white nursing.

Between screen appearances, Miss Rudami devotes her time to the writing of tragic-drama scenarios of Italian life.

### Female Barber Declares Men Are Vain Sex

ATLANTA, Ga., June 13.—(U.P.)—Five years of bartering have convinced Miss Patsy Gregg, who annually shaves and haircuts upwards of 1000 Atlanta men that:

Men are the vain sex. Married or not, they are all flirts.

Married men don't talk about their wives much.

Miss Gregg is in charge of Atlanta's only shop where a man can get shaved by a woman. Six women barbers are in her employ.

In an interview she hazarded a guess that while women know more about men than men know about themselves, a woman barber knows more than anyone the oddities of the male.

"Everybody knows that a barber chair is the most likely place in the world to tell your troubles. Men barbers will agree that this is so. When a man shuts his eyes and feels a smooth razor against his face, he always wants to unfold his troubles."

The majority of men, as I have shaved them, are amusing. Especially traveling men and married men. Most men don't mean to hurt their wives feelings but they are flirts, married or not.

It is surprising how vain men are. They make a fuss over their wives' dressing and priming and really they are worse. I know. I've waited on both. I'll bet a lot more men today get massages than women. And a good many get permanent waves. Lots of them want pain and powder on their faces. They'll take a mirror and criticize the slightest flaw in their haircut, especially if you cut their pet curl or sideburns too short."

## FARM BLOC IS DEFEATED ON RELIEF PLAN

By PAUL H. MALLON  
(United Press Staff Correspondent)

KANSAS CITY, June 13.—The farm bloc lost its first stand for the McGary-Haugen bill in the republican patron drafting subcommittee yesterday afternoon.

The sub-committee voted, 13 to 3, against the Bloc's plank which favored the administration's farm relief bill adopted twice by President Coolidge.

Then without further contest it adopted the administration's agriculture marketing plan and also the farm plan for a high tariff on all agricultural products.

These votes ended the farm fight begun in the committee when it went into executive session at 10 p.m. yesterday to draft the document upon which the party will stand in the coming presidential campaign.

The Farm Group in the drafting committee put up a vigorous fight for the McGary-Haugen bill and held up the procedure of the convention for several hours.

The group included Delegates J. O. Schafft, Iowa; C. A. Teague, California, and Earle Smith, Illinois. The other 13 members of the committee were solidly against them.

When the rest of the platform had been completed about 4 a.m. the group served notice that they intended to fight for a plank acceptable to agricultural interests.

They forced an amendment of the weary committee at that time and renewed their fight when the committee met again at 10 a.m.

The administration leaders and the Farm bloc efforts to compromise with the three, but all efforts were fruitless. They wanted the Equitable fee system of relief approved by the party and they would take nothing less.

Finally compromise efforts were abandoned toward mid-afternoon when the vote was taken.

The group of three reserved the right to file a minority report with the full platform committee if they desired. They had threatened during the hot debate to take their fight to the floor of the convention if their demands were not met.

With that ruling in mind, the teachers may decide whether to respond to the summons of Cupid's arrow and seek happiness in matrimony, or to stay single and be sure of the weekly salary check.

Furthermore, young men and women on high school faculties who make dates with students will be faced with a demand for those holding high scores.

Boys and girls who still have commencement ahead of them will have to choose between the remainder of their education and a high school diploma, and a plunge into the sea of matrimony.

O. J. Beiter, president of the school board said the ruling was made because of the recent marriages of one young woman school teacher and six pupils.
